

The **PADI Digital Underwater Photography Course** is one of the most popular diving specialities sought after courses. It's fun and easy because it gets you going with today's modern digital equipment whether you use point-and-shoot camera or a sophisticated DSLR like the professionals. This course allows you to capture the beautiful aquatic realm and you can share it with your friends and family or have them as your precious mementos from your adventures.

Take the [PADI Digital Underwater Photographer Course Online Now!!!](#)

- **What You Learn**

- \*How to choose the right underwater camera system for you
- \*The PADI SEA method for getting great shots quickly
- \*The three primary principles for good underwater photos

-

**Level One** certification is followed by a single training session in a pool, confined water or open water. It covers the basics of digital underwater photography, as well as gear assembly and care.

**Level Two** certification requires the level one training described above plus a second training session in open water. Additional material covered in level two includes: composing a photo, file formats, how to achieve good color in your images, and other topics.

**Pre-requisite:** minimum age 10 years old, Jr or Open Water Diver or can also be a snorkeler  
option no certification required

**Materials:** PADI Digital Underwater Photographer Crew-pack with a white balance slate.

**Course cost:** Dhs 1550.00 (2 dives) includes DUP crew pack, 2 training water dives, scuba gear.

If you haven't been diving for more than 6 months, we recommend you to complete the Scuba refresher prior to starting any courses.
